ATB35 - Articulating Endoscopic Linear Cutter

Add to Order

ENDOPATH ETS-FLEX Articulating Endoscopic Linear Cutter loaded with a standard (blue) cartridge delivers two triple-staggered rows of staples while simultaneously dividing the tissue between the rows. An articulation lever enables bilateral movement of the instrument jaw. The instrument has a staple line that is 35mm long and a cut line of 72mm long. The instrument is reloadable with either a standard (blue/TR33B) or Vascular (white/TR33W) reload. The instrument can be reloaded seven times for a maximum of eight firings per instrument. The instrument's safety lock feature is designed to prevent a spent reload from being refired. A staple retaining cap on the reload protects the staple points during shipping and transportation.
